### **Draftsperson/Designer – Structural Detailer/Miscellaneous Metals**

#### **Description:**

Dynamic Millwrights Inc. is looking for a motivated, experienced Designer/Draftsperson to join our team focusing on structural design and detailing, as well as, the design and detailing of many miscellaneous metals projects. Our goal is to design and fabricate all components efficiently and to the highest standard.

#### **Responsibilities:**

- Read and determine the requirements of the project documents and communicate freely with project managers regarding these requirements.
- Develop detailed models and submittal drawings from specific design documents for structural components and miscellaneous metals using CAD software (Advance Steel, SolidWorks, Draftsight, PDM)
- Recognize, modify and revise existing designs to optimize equipment output, minimize operating deficiencies and reduce production errors with our designs as well as customers existing equipment
- Some, in shop, duties will be required. This will further general knowledge and assist with design applications in several different areas and product scopes
- Review, research and analyze specifications, sketches, drawings, ideas, and related data to assess factors affecting component designs and the procedures and instructions to be followed
- Complete shop drawing and work order packages for fabrication for internal and external sources
- Layout, draw, and reproduce illustrations for reference manuals and technical publications to describe operation and maintenance of mechanical systems
- Utilize Microsoft office software to organize project information
- Other Duties as Assigned

#### **Requirements:**

- Structural detailing experience strongly recommended and preferred
- Structural steel experience in drafting, fabrication, or installation an asset will be considered in lieu of structural detailing experience
- Miscellaneous metals experience in drafting, fabrication or installation will be considered in lieu of miscellaneous metals detailing experience
- Proficiency/Knowledge in AutoCAD, Advance Steel, Tekla, SolidWorks, PDM or like software an asset
- Strong organizational skill and attention to detail
- Exceptional communication and time management skills
- Ability to work independently and collaboratively
- Ability to prioritize ensuring all timeframes and deadlines are met
- Proficient computer skills in Microsoft Excel, Word and Outlook

Competitive wages, Company Benefit and Group RRSP and DPSP package offered.
